CX Guidelines v1.0.1: Change log

Standards change

Change	Description	Reason	Page reference
'Account balance' permission added to basic scope	The 'Account balance' permission has been moved from 'Account numbers, balanced and features' data cluster to the 'Account name and type' data cluster.	This was a defect that has now been amended.	Page 21: Data Standards Language

Guidelines changes

Change	Description	Reason	Page reference
CDR logo / 'Trust mark'	The 'trust mark' is now synonymous with the CDR logo. The CDR logo is not currently shown in any visual examples in this version of the CX Guidelines. This will be implemented in a later release.	The ACCC will be releasing the CDR logo and website in the future.	Pages 10, 37, 39, 77
Data recipient consumer dashboard: duration component	Changes made to visual component for single collection example. Language for frequency of data sharing now made past tense.	To provide requested clarification and guidance.	Page 95
Ongoing notifications	Wording has slightly changed for CDR Rules on ongoing notification to mirror the language in the CDR Rules.	To provide requested clarification and guidance.	Page 89, *last 2 CDR Rules*
10 Usability Heuristics for User Interface Design reference	The reference to the '10 Usability Heuristics for User Interface Design' now links to the source.	To provide requested clarification and guidance.	Pages 39, 45, 65. 66, 71, 84, 90, 97, 98, 102, 108, 109
